

How can I keep my personnel order consistent in both the MyFunding budget and the SF-424 grant application?

The only individual who maps to the same location on the SF-424 as on the MyFunding budget is the Principal Investigator. All other personnel will display in a random order on the SF-424. However, these names can be moved manually on the SF-424 to be consistent with the MyFunding budget, if desired. This randomness of personnel order is currently being evaluated and will be addressed in a future upgrade to the MyFunding module.
