

2018 Death & Dying Fellowship

A Jewish Healthcare Foundation Feinstein Fellowship

The Elephant in the Room

Did you know?

- **70%** of Americans say they prefer to die at home; only **25%** actually do
- **80%** of people want to talk to their doctor about end-of-life care; only **7%** have
- **90%** of people think it is important to talk about end-of-life care with family; less than **30%** have

ABOUT

This Fellowship takes on a key challenge: the reality that professionals are not well prepared to deal with or talk about death, dying, and grieving families. The Fellowship allows participants to learn, confront, and discuss the legal, medical, social, cultural, familial, and spiritual aspects of death and dying within a multi-disciplinary group in a low-pressure environment. The sessions include opportunities to practice conversation skills, facilitated conversations, and site visits.
