

ASCP Fidget Blanket Drive

11/4/19-12/6/19

Many patients with dementia have been shown to benefit from sensory stimulation afforded by blankets such as these. We are looking for various materials to create blankets to donate to an advanced dementia unit. Some things we have used in the past include, but are not limited to:

- **Blankets**
- Colorful/textured/interesting fabrics
- Buttons
- String/yarn
- Beads
- Stuffed animals
- Buckles
- Bells
- Shoelaces
- Zippers
- Velcro
- Ribbon
- Gloves
